

## Functions

Safety enclosures equipped with SOCOMEC switches provide emergency breaking, breaking for mechanical maintenance and safety isolating near to any low voltage final circuit.

They offer the following features:

- fully visualised breaking
- visible breaking
- double door locking
- triple padlocking of the handle
- mechanical indicator (optional).

## Compliance with standards

- NF C 15-100
- EN 60204
- NF EN 60439
- NF EN 60695-2-11
- Decree of 14.11.88: worker protection
- Decree of 29.07.92: safety of machines
- Decree of 11.01.93: compliance of machines.

## General characteristics

Material	Sheet metal	Polyester
Environment		
Chemical aggression		•
Mechanical risk	•	
Dust hazard	•	•
Contamination hazard		•
Atmospheric corrosion		•

### • Sheet steel enclosure

- sheet steel FEP01ZE electro-zinc coated, 2 mm thick
- 2 mass connecting points
- IP559.

### • Polyester enclosure

- high comparative tracking index
- good resistance to chemical agents
- self-extinguishing at 960 °C
- 2 mass connecting points
- IP559.
